MD AJMEER KHAJA

khajamdajmeer@gmail.com | (+91) 6300207822 | [@Portfolio](#)

EDUCATION

❖ **Deccan College of Engineering and Technology**, Hyderabad   (08/2020 – 07/2023)
Bachelor in Computer Science Engineering

❖ **Sree Visvesvaraya Institute of Technology and Science**, Mahbubnagar   (06/2017 – 03/2020)
Diploma in Electrical Electronics Engineering

PROJECTS

❖ **MHB Services Website**

- Independently conceived, designed, and developed the MHB Services Website as a freelance project. Leveraged the MERN stack to create a robust platform tailored to service-based businesses.
- Crafted an advanced admin dashboard, facilitating real-time monitoring of employee and technician progress.
- Implemented workflow optimization strategies to boost operational efficiency and overall productivity.

❖ **Car Rental Front-End**

- Developed an engaging front-end project aimed at revolutionizing the car rental experience. This initiative streamlines the user journey by providing intuitive features for effortless browsing, thorough vehicle comparisons, and streamlined car selection. It effectively addresses the diverse rental needs of both individual and business customers.

EXPERIENCE

❖ **Etihad Prime Pvt Lmt, Hyderabad - Front End Web Developer Intern** (03/2022 - 07/2022)

- Collaborated with a team to develop and enhance an Education Institute's website.
- Applied HTML, CSS, JavaScript, and responsive design techniques using the REACT.js Framework.
- Collaborated closely with UI/UX designers to incorporate design elements and ensure a seamless user experience.
- Participated in code reviews and actively addressed issues to uphold code quality.

SKILLS

❖ HTML, CSS, JAVASCRIPT
❖ React.js, Node.js, Express.js, MERN Stack
❖ Git, Responsive Web Design
❖ Agile Development

OBJECTIVE

- As a highly motivated web developer skilled in HTML, CSS, JavaScript, React.js, Node.js, Express, and Git, I am actively seeking a position that enables me to leverage my technical proficiency and problem-solving acumen to craft outstanding user experiences. My enthusiasm drives me to make meaningful contributions to a dynamic team and spearhead innovation in web development projects.
